Spanish (Native)

100%

English (Advanced)

80%

ABOUT ME

As an enthusiastic and detail-oriented Junior Full Stack Developer, I bring proficient knowledge in frontend technologies like HTML and CSS, along with experience working with third-party libraries such as React. On the backend, I'm skilled in Express and MongoDB. My goal is to leverage these technical skills to provide value to employers and contribute to successful projects. I thrive on challenges and enjoy using my coding and debugging abilities to enhance user experiences.
